Fax : 33/(0).491.83.21.10

1 - IDENTIFICATION

1.1 Commercial name	SOLUSCOPE C		
1.2 Distributor	Medlore	Tel.	33/(0).491.83.21.22
	43 boulevard de la Barnière	Fax :	33/(0).491.83.21.10
	13010 Marseille		
	FRANCE		

2 - COMPOSITION

2.1 Chemical nature	Acidic detergent Quaternary ammonium chlorhydrate. Surfactants, excipients.
2.2 Components that may pose a hazard	Quaternary ammonium chlorhydrate Xi, R22 : 5% CAS n° 7173-51-5

3 - HAZARD IDENTIFICATION

3.1 Specific risks	Harmful if swallowed
--------------------	----------------------

4 - FIRST-AID MEASURES

On contact with eyes, wash them immediately with copious amounts of water, as well as under the eye-lids, for at least 15 minutes. Consult a specialist.

In the case of skin contact, remove contaminated clothing and wash with soap and water. If irritation occurs, consult a specialist.

In the case of ingestion, do not induce vomiting; use a product intended for protection of the stomach and urgently consult a doctor, showing him the label.

5 - FIRE-FIGHTING MEASURES

5.1 Recommended extinguishing methods	The product itself does not burn. In the case of an adjacent fire, all extinguishing methods may be used.
---------------------------------------	-----------------------------------------------------------------------------------------------------------

Safety data sheet

In accordance with the 91/155/EEC directive

SOLUSCOPE C

- | | |
|-------------------------------------------|-----------------------------------------------------------------------------------------------|
| 5.2 Particular intervention methods | Standard procedure for fires of a chemical origin. |
| 5.3 Special personal protective equipment | In the case of fire, use a self-contained breathing apparatus and a full-body protection suit |
-

6 - MEASURES TO TAKE FOLLOWING ACCIDENTAL SPILLAGE

- | | |
|------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6.1 Individual precautions | Wear suitable gloves |
| 6.2 Environmental protection precautions | Do not dispose of in a natural environment (watercourse, soil and vegetation, etc.) |
| 6.3 Clean-up methods | Do not put back product, once spilt, into its original container, with the intention of re-using it.
In the case of minor leakage or spillage, dilute the product immediately with plenty of water.
If the quantities spilt are more significant, contain and soak up the liquid using an inert, absorbent material. Remove to drums and wash the contaminated area with water. |
-

7 - HANDLING AND STORAGE

- | | |
|--------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 7.1 Handling | Product for external use. Do not swallow.
Avoid all splashing on the skin and in the eyes.
Close properly following use. |
| 7.2 Storage | Keep in original packaging.
Store away from heat, in a well-ventilated area, between +5°C and 35°C
Do not exceed the expiry date indicated on the packaging. |
-

8 - EXPOSURE CONTROL/INDIVIDUAL PROTECTION

Hand protection : Suitable gloves.
Other protection measures : Provide for an eye-bath in the work area.
Warn all SOLUSCOPE C users of the risks involved and the associated protection measures.

General protection and hygiene measures : show the normal degree of care associated with the handling of chemical products.

Safety data sheet
In accordance with the 91/155/EEC directive**SOLUSCOPE C**

9- PHYSICAL AND CHEMICAL PROPERTIES

9.1 Appearance	Physical state at 20°C	:	Liquid, clear
	Colour	:	Blue
	Odour	:	Slight
9.2 pH	Pure product	:	3.2 ± 0.2 at 20°C
	Diluted to 0.5%	:	6 ± 0.5 at 20°C
9.4 Flash-point	Not applicable.		
9.5 Flammability	Non-flammable		

10 - STABILITY AND REACTIVITY

10.1 Stability	Chemically stable under normal conditions of use and storage.
10.2 Conditions to avoid	Mixture with other products.
10.3 Materials to avoid	Powerful organic and inorganic oxidants. Acids and alkalis.

11- TOXICOLOGICAL INFORMATION

11.1 Cutaneous irritation	Possibility of a slight irritation in case of extended contact
11.2 Ocular irritation	Irritation characterized by an excessive eye blink, an eye watering and a conjunctiva redness

12- ECOLOGICAL INFORMATION

Based on current knowledge, it is expected to have no hazardous effect on the environment. This easily biodegradable preparation presents no appreciable risk to aquatic flora and fauna.

Low concentrations do not affect the biological cycle in activated sewage sludge and can be processed in a water-treatment system.

13- CONSIDERATIONS REGARDING DISPOSAL

Bearing in mind the regulations in force, contaminated packaging should be transported to a place properly approved for the incineration of special waste.

Safety data sheet

In accordance with the 91/155/EEC directive

SOLUSCOPE C

14- INFORMATION REGARDING TRANSPORT

Not considered to be a hazardous material according to transport regulations.

15- REGULATORY INFORMATION

Safety data sheet	Directive 91/155/EEC modified by Dir. 93/112/EEC : dangerous substances and preparations
Classification/EEC labelling	Directive 88/379/EEC modified by Dir. 93/72/EEC (28 th adaptation) Danger Indication(s) : Xi : Irritant.
	<u>R-phrases</u> : R22 : Harmful if swallowed
	<u>Phrases S</u> : S2 : Keep out of the reach of children. S26 : In case of contact with eyes, rinse immediately with plenty of water and seek medical advice . S36/37/39: Wear suitable protective clothing, gloves and eye/face protection. S45 : In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

16- OTHER INFORMATION

Recommended use	<u>Indications for use</u> : Cleaning and decontamination of surgical and medical instruments, medical devices, thermo-labile instruments and endoscopy equipment.
Restrictions on use	Reprocessing of contaminated instruments for re-use.

This sheet takes into account all the potential dangers that are likely to be linked to the handling and use, under normal conditions, of the preparations, remaining in the same form in which they are sold, but not necessarily in any different end-use form; for example, a diluted state.

The user's attention is drawn to the regulatory obligations that bind him or her and which engage his or her responsibility according to the following clauses hereafter ; they are given in good faith. Furthermore, the user's attention is drawn to the risks that may be entrained when a product is used for a purpose other than for which it has been designed.

This form complements technical use instructions but does not replace them. The information contained in it is based upon our relative knowledge of the product concerned, at the date indicated. Under no circumstances does it exempt the user from knowing and applying, in their entirety, the texts regulating his or her activity. He or she will take full responsibility for the precautions linked to his or her utilisation of the product.

NOTE : All the regulatory measures mentioned are simply aimed at helping the end-user to fulfil the obligations that bind him or her. This account can not be considered to be exhaustive.
